PITTSBURG, FT. WAYNE & CHICAGO
RAILROAD!
THE new and Direct Route now open to New York, Boston, Pittsburgh, Philadelphia, Baltimore and Washington City, Cleveland, Dunkirk, Buffalo, Niagara Falls, and all Eastern Cities, Cincinnati, Columbus, Dayton, Springfield, Urbana, Zanesville, Steubenville, Newark and Wheeling, and all Interior Towns of Ohio, Pennsylvania, Virginia, Maryland, New Jersey, &c., making one grand unbroken Rail Road line between
CHICAGO AND THE EAST.
FARES AS LOW AS ANY OTHER ROUTE.
☞ Passengers wishing to go by this desirable and pleasant Route, should be particular and ask for Tickets by Fort Wayne, avoiding the annoyance of re-checking baggage as by other routes.
Trains leave Depot on VAN BUREN ST., daily as follows:
7:00 A. M. 8:15 P. M.
With but one change of cars to Pittsburgh.
CHECKING BAGGAGE THROUGH
To Pittsburgh, Philadelphia, Baltimore and New York. Connecting directly with trains for the great Pennsylvania Central Railroad, to all Eastern Cities. Also, with Cleveland and Columbus Railroad to Cleveland, Dunkirk, Buffalo, Niagara Falls, and the New York Central and New York and Erie Railroads to New York and Boston.
Persons going East will find this route by far the most desirable both for the advantage in point of distance, variety and beauty of the country through which the roads pass, as well as the less frequent changes of cars, and the annoyance of re-checking baggage required by other routes.
Facilities for the transportation of Freight and Live Stock by this route, are unsurpassed. Rates as low as any other route, and with equal dispatch.
Tickets for sale at all the principal ticket offices at the West, and at the Company's Office, No. 99 Dearborn St., opposite the Sherman House, Chicago, and at the office of the Lake Shore Railroad, Milwaukee, by A. G. Ireland.

9.15 p. m. Night Express: arriving at Niagara Falls or Buffalo next evening, New York at 1 p. m., at Boston 4 p. m. next day.
Also connects at Michigan City, (except Saturday) direct, with trains on N. Albany & Salem R. R. for New Albany, Indianapolis, Cincinnati, Dayton, Columbus, Zanesville, Bellefontaine, Union, Wheeling, Baltimore, Washington and Philadelphia.
☞ The trains on the Chicago, Burlington & Quincy, Galena & Chicago Union, Illinois Central and Michigan Central Railroads run into the Michigan Central Depot, saving the expense to passengers of hack hire and transfer of baggage.
The 7.40 a. m., 3.00 p. m. and 9.15 p. m. trains make direct connections at Toronto with the
Grand Trunk Railway,
To Kingston, Ogdensburg, Montreal, Quebec, and all points in Canada East, Northern Vermont, New Hampshire and Maine.
It is well known by the traveling public that this Road has no competition of equal facility from Chicago to Niagara Falls, New York, Ogdensburgh, Montreal, &c., &c.
The only train that leaves Chicago Saturday night is over this route, 9.15 p. m. One train Sunday, at 9.15 p. m. No 5.30 Sabbath Train.
Baggage checked through to Niagara Falls, Buffalo, Albany, New York, Boston, Elmira and Philadelphia.
☞ Passengers arriving at Chicago by any of the Railroads, will find competent agents on the cars and baggage masters at the depots, to receive checks and convey their baggage to the Michigan Central Railroad Depot free of charge.
Through Ticket Good for Ninety Days,
Allowing holders to remain over and resume their seats, can be bought at the different offices in the West; also at the Passenger Depot, foot of Lake street, and at the General Ticket Office, corner of Lake and Dearborn streets, Chicago, opposite the Tremont House.

VOLUME XIV. MILWAUKEE DAILY SENTINEL, THURSDAY MORNING, JUNE 11, 1857. NEW SERIES.

THE DAILY SENTINEL.

RUFUS KING & WM. H. WATSON,
PROPRIETORS.
Under the Name and Firm of Rufus King & Co.

MILWAUKEE:
Thursday Morning, June 11.

Kansas and Gov. Walker.

In hope, doubtless, of putting an end to every form of objection the Black Republicans profess to have against voting at the forthcoming election in Kansas, the Governor has written a letter which in effect assures any voters who were overlooked by the registry officers, designedly or accidentally or who have acted on the advice of Republican politicians in the States and refused to be registered, that they may cast their votes and the authorities will receive them.—*News.*

Gov. Walker does, unquestionably, make the fairest sort of propositions and promises, but of what good are they, when he expressly say, yet that he must carry out the bogus laws?

He says he means "to take care, as far as practicable, that this election of Delegates to the Convention shall be free from fraud violence, and that they shall be protected in their deliberations."

He urges that no one can safely predict that a fair vote will not be taken. He looks for good results "from the wisdom and justice of the Convention." He says that he cannot doubt that the Convention, after having framed a State Constitution, will submit it for ratification or rejection, by a majority of then the actual *bona fide* resident settlers of Kansas."

All this sounds very well; magnificently, in fact. The Governor's tone is sweeter than the honey-comb. Yet he is obliged to confess that he can do nothing to secure the Free State men their right of suffrage, for he says:

Although most anxious to secure to you the exercise of that Constitutional right, and believing that the Convention is the servant, and not the master of the people, yet I have no power to dictate the proceedings of that body.

Of course he has no such power. His instructions, and his own wishes in accordance with them, are to carry out the bogus laws made by the Missouri ruffians. He says, in regard to this:

The Territorial Legislature is the power ordained for this purpose by the Congress of the United States; and in opposing it, you resist the authority of the Federal Government. That Legislature was called into being by the Congress of 1854, and is recognized in the very latest Congressional Legislation. It is recognized by the present Chief Magistrate of the Union, just chosen by the American people, and many of its acts are now in operation here by universal assent. As the Governor of the Territory of Kansas, I must support the laws and the Constitution; and I have no other alternative under my oath, but to see that all Constitutional laws are fully and fairly executed.

That Missourian mob-made Legislature laid its plans carefully, elected its own local officers throughout the Territory, and provided for a registry of persons who might, and who *only* might vote for members of the Convention. These officers in taking the register have *left out* nearly all the Free State men, so that on the day of the election, under these laws which Gov. Walker says that he must support, they could not vote if they would.

Yet the Governor reads them long homilies on their duty to vote. "It is true," he says, in effect, "that by the Territorial Lawswhich I am bound to sustain, you are precluded from voting; but it will be very wrong on your part *not to vote.* Of course you must obey the laws, and and I have troops to quell any disorder, but you must vote, although the Laws do not allow you to do so. Voting is a moral duty, and you will be responsible for the result if you do not vote; but you must be careful not to violate the laws, which refuse you the right to vote!"

Such is, in reality, a fair and easy translation of Gov. Walker's Message, and its appeals to the Free State men.

Governor Walker's Blunders.

It may be remembered that Mr. Robert J. Walker, when Secretary of the Treasury, made some remarkable recommendations in one of his reports, relative to the grants of school sections by Congress. The blunder which he made was widely commented upon at the time, but it appears that Mr. Walker has not learned wisdom yet. In his inaugural as Governor of Kansas, he brings out again his old suggestion, as follows:

As regards the school lands of the new States, the following views will be found in my reports of the 8th of December, 1845, and 9th of Dec., 1846, as Secretary of the Treasury of the United States:

"The recommendation contained in my last report for the establishment of ports of entry in Oregon, and the extension there of our revenue laws, is again respectively presented to the consideration of Congress, together with donations of farms to settlers and emigrants, and the grant of a school section in the centre of every quarter of a township, *which would bring the school house within a point not exceeding a mile and a half in distance* from the most remote inhabitant of such quarter township."

And again:

"My last report recommended the grant of one section of land for schools in every quarter township in Oregon. * * * * * * * *

Congress, to some extent, adopted this recommendation, by granting two school sections in each township, instead of one, for education in Oregon; but it is respectfully suggested that even thus extended, the grant is still inadequate in amount, *whilst the location is inconvenient, and too remote for a school which all can attend.*

Mr. Walker, it is seen, still holds to his original brilliant idea that the section granted by Congress for school purposes, and intended as *locations* for school houses, instead of the basis of a productive fund in each State, to be applied to educational purposes, *wherever* the schools are located.

After all Gov. Walker's profusion of words in regard to popular education, he is himself behind in some respects, the children of the common schools, for *they* have doubtless found out that *all* the school houses are not situated on the sixteenth sections.

☞ Major W. J. Cullen, the newly appointed Superintendent of Northern Indian affairs, and Col. W. B. Bowen, Clerk of the Indiana House of Representatives, called upon us last evening. The are *en route* for Minnesota.—*News of yesterday.*

Major CULLEN is appointed in place of our fellow-citizen, Dr. HEUBSCHMANN, who was unceremoniously removed, for doing his duty. The Doctor resisted to the uttermost the fraudulent $40,000 claim of DICK. THOMPSON, and as the administration allowed and paid this claim, they could not consistently retain in office the faithful Superintendent who had opposed it.

A BROAD ENDORSEMENT.—The Kansas address of Gov. Walker is broadly endorsed, by the N. Y. Times, as follows: The Times, as everybody knows, is high "republican" authority.—*News of yesterday.*

The N. Y. *Times*, as everybody but the *News* knows, some time since formally renounced its allegiance to the "Republican" party and proclaimed itself an independent paper. It is but a week ago that a high Federal officer in this State told us that the *Times* was to be the leading "Democratic" organ in New York. So much for the "Republican authority" of the *News.*

NEW POST OFFICE.—A new Post Office has been established on the line of the Watertown division of the La Crosse & Milwaukee R. R., 10 miles West of Watertown. It is called REESEVILLE, and the name of the P. M. is ADAM REESE.

PRESBYTERIAN CHURCH (N. S.) SCHISM.—The Southern delegates to the General Assembly at Cleveland have called a Convention at Washington City on the 27th of August, to form a new General Assembly—an Assembly in which there shall be no discussion or agitation of the subject of Slavery.

☞ The appropriations made from the Connecticut State Treasury, during the past five years, for benevolent, literary and patriotic purposes, show the handsome aggregate of 268,985 dollars and 96 cents.

The Overland California Mail.

The Buffalo *Republic* thinks from the tone of the Washington *Union* in reference to the subject, that the Mammoth Express Companies which recently united in a bid for the transportation of the overland California mail, in post coaches, will get the contract. The contract is to be for six years, at not exceeding the following annual compensation:—$300,000 for a semi-monthly mail—$400,000 for a weekly, or $600,000 for a semi-weekly, at the discretion of the Postmaster-General. The contractors must employ for the service "good four horse coaches, or spring wagons suitable for the conveyance of passengers, as well as the safety and security of the mails." They are to have pre-emption right to 320 acres of land for stations, not nearer each other than ten miles. Each trip is to be performed within twenty-five days. The award of the contract is to be made by the Postmaster-General, with the proviso that he must be satisfied of the ability and disposition of the parties in good faith to perform the contract, and must require good and sufficient security of them for its performance. The service must commence within twelve months after the contract is signed.

Interesting News from Kansas—Attempt to enforce the Bogus Assessment Law.

On the the 6th of June, one Fain, of infamous notoriety as a Marshal at the sack of Lawrence by the Border Ruffians, entered Lawrence and commenced assessing, or trying to assess property.

An indignation meeting was immediately called. It was participated in by the oldest and most influential citizens of the place. It was determined that the taxes should not be paid.

The following preamble and resolutions were passed at the meeting:

WHEREAS, We understand that a person claiming to be Deputy Sheriff and Assessor of Taxes, under the authority of the Bogus Legislature, is now in our midst; and whereas we utterly repudiate the authority of all persons claiming to be officers of that Legislature; and whereas the monies so fraudulently collected from our people have been, and may again be appropriated in part, to defray the expenses incurred in burning hotels and private dwellings, destroying printing presses, sacking towns and plundering the property and outraging the dearest rights of our citizens:—Therefore,

Resolved, That in the opinion of this meeting, no good citizen will in any manner furnish "aid and comfort" to the Assessor or Collector of Taxes, or render to him a list of the valuation of his property.

Resolved, That recognizing the principle established by the blood of our fathers, that "representation and taxation are inseperable," we will never violate that principle by the voluntary payment of any taxes levied by the present Territorial Legislature.

SPANISH CENSORSHIP OF THE PRESS.—The Spanish Chambers have under consideration a new law of such severity as will probably, if it passes, put a stop to everything like the free expression of opinion on the part of the press in that country. The list of offences under the law include the following: Discrediting the Government; propagating maxims opposed to public tranquility; applauding criminal actions; speaking ill of the ministers of foreign sovereigns; and revealing conversations. The charges against journals may be published, but the publication of speeches for the defense is prohibited. Fines, which in some cases amount to £300, will be taken from the caution-money, and if not replaced in three days, the journal is to be suspended. It will also be suspended if the editor be sentenced to imprisonment. It is forbidden to open subscriptions for the payment of fines.

SUFFRAGE IN ENGLAND.—British and American suffrage is forcibly contrasted in the fact now obvious to the British public, that in the present administration, four members of the British Parliament, the Premier, the Chancellor of the Exchequer, the Home Secretary, and the Secretary for Colonial Affairs, represent in the aggregate, only two thousand one hundred and fifty electors, while Cobden and his associate member, (or two members,) represent 37,819 electors, and a population of 1,500,000.

It is thus that a population of less than 100,000 have as much influence in that House, which rules the destinies of the British Empire, as 1,500,000.

THE RESEIDE CLAIM.—Everybody remembers the Reseide Claim, for the payment of which Congress appropriated $188,456, with interest from 1841, amounting to $326,501:70. Mrs. Reseide, the executrix of the estate, who recovered the claim, has filed her account of the administration of her husband's estate, and by her sworn account it appears that *she paid* $106,594:59 for *lobby service and other expenses*, in getting the claim allowed!

☞ The Canal boat *A. D. Booth*, arrived at Buffalo from Albany on the 5th. This is the boat which it was said was racing with another boat, the *Caspian*, bound for Oswego, the test being the time of getting the goods to Chicago. The goods by the *Caspian* reached Chicago long since. There was in fact, no bet, but the incident illustrates the advantage which the breaks in the canal have thus far given Oswego over Buffalo.

PENALTIES UPON BANKERS.—The Legislature of Pennsylvania, at its recent session, passed a law prohibiting private bankers or brokers, holding licenses from the State, from paying out bank-notes of other States in the purchase or discount of any bill of exchange, promissory note, or other negotiable paper. The law is to take effect on the first of July, and violation is to be punished by fine and imprisonment.

MORE MURDERS BY THE INDIANS.—The Henderson *Democrat* of the 4th, learns from the Sioux Agency that the two friendly Indians sent out by Agent Flandreu to purchase the two remaining female captives of the hostile Indians, *have been murdered by those rascals and all their goods taken possession of!*

☞ The infant daughter of Queen Victoria is to be baptised about the middle of June, and receive the names, Beatrice Mary Victoria Feodore, her sponsors being the Duchess of Kent, the Princess Royal, the Duke of Cambridge, and Prince Frederick William of Prussia.

PROFITABLE INVESTMENT.—The Episcopal Fund of the Diocese of Iowa, some $7,000, was invested in lands a couple of years or so ago; the lands thus purchased are now estimated to be worth about $33,000.

Minnesota All Right.

We have private advices from Minnesota to the 6th inst., which shows almost conclusively that the Republicans have triumphed. The Democrats, however, still hope that the few returns to come in will result in their favor. Even Nicollet county, which Gorman had always counted as his, had gone Republican.

At Swan River the ballot boxes were taken possession of by a mob and burned.

At St. Cloud, H. C. Wait, Republican, beat Rev. J. T. Creighton, Dem. The Republicans have also carried Sauk Rapids, West Anokn, and the whole of Chicago county.—*Chicago Press.*

The *Tribune* adds:

Last evening we received the St. Paul *Times* of the 6th inst., which, in a postscript says; "Later returns show almost an entire certainty of the Republicans having carried the Territory! Those known to be elected now count up Democrats 34, Republicans 35! One ahead, with districts to be heard from, which will probably throw two to one Republican!" We hope this good news and pleasant opinion will be confirmed.

THE CROPS.—The accounts which we receive from all parts of the country in regard to the crops are very cheering. The late refreshing rains and the warm weather have their desired effect on vegetation, and unless something which cannot now be foreseen should happen there will be an abundant harvest notwithstanding the last cold winter and the dreary prospects of the spring.—*Columbus Republican.*

THE GRAIN CROPS.—From every section of this county we learn that the prospect of great crops of grain, especially wheat, never offered to be so good at this time in the season. We presume the same may be said of the harvest prospect in every section in the State.—*Portage City Record.*

Correspondence of the Sentinel.

Sauk County Crops.

THINGS ARE GROWING.—A Dane County Farmer, who has forty acres of Rye—nothing to say of other grain—under good headway, sent in a spear of Rye, yesterday, which measures full three feet in length. We think Wisconsin will do her share, this year, towards feeding the masses on both sides of the Atlantic.

The above is from the *Sentinel* of Friday, 8th.

Dane County has not produced any such specimen of Rye, the present year; but *said* Rye was grown on Sauk Prairie, Sauk County, Wisconsin. Speaking of "other crops under good headway;" we may mention a field of tame grass which will be made into hay, on or before the 15th of the present month. Strawberries, too, are ripening.

In the way of early farming or heavy crops, we of Sauk County calculate to *lead the State*, and have no idea of our neighbors of Dane County sleeping on our laurels. The "premium" crop of corn, which was grown by Mr. HATCH, of Sauk City, in 1855, from which he gathered *one hundred and twenty-six* bushels of shelled corn per acre, from an extensive field, has not yet been beaten. From the same field last summer, he gathered eighty bushels per acre, and the season was unfavorable. Respectfully Yours,

SAUK.

June 9, 1857.

GEN. CASS ON OLD TIMES IN THE NORTH WEST.—Gen. CASS was among the large party who celebrated the opening of the railroad from Baltimore to St. Louis, *viz.* Cincinnati. In a speech at Marietta, Ohio, he remarked as follows:

Fifty-seven years ago, all the North-west Territory contained only 30,000 people, now its limits include six millions. *The man is now living whose axe felled the first tree of these forests*, and there are men now alive who will not pass away until the United States has attained a population of one hundred millions. The triumphs of the past are wondrous. From a land without cultivation, without schools, without internal improvements, this has become a State, both prosperous and powerful. The vessels which traversed the beautiful river flowing at our feet, were the "Kentucky Ark" for descending and keel boats for return. Fifty-one years ago, when I was a young man, representing this county in the Legislature of this State, when those pioneer steamboat builders Messrs. Fulton & Livingston, made a proposition to our State authorities to establish lines of passengers and freight boats on the Ohio, propelled by steam against the current at the rate of four miles per hour. The proposition was laughed out of the Legislature as impracticable; I was a *young* fogy then, I am an *old* fogy now. If it had depended upon us of that day, the magnificent enterprise of steam navigation would not now be startling us with its grand achievements.

Madison, Michigan and Fond du Lac R. R.

We are not yet in receipt of our engraved map of this road and its connections, but progress is making.

But in the meantime we have the unmixed satisfaction of informing our readers that work has been fully resumed, as we believe never to cease until completed to the junction of the Madison and Portage division of the La Crosse and Milwaukee Railroad, near Madison. But very little remains to be done between its junction with the La Crosse and Milwaukee Railroad at this city and Fall River. There are not more than fifteen hundred feet of unfinished grading, and the bridging and culvert work was all completed last fall. A large portion of the ties were on the line and the remainder are purchased and will be in readiness for delivery as fast as needed. Thirty days will complete the line to Fall river in readiness for the track. Arrangements have been made for the iron and in the course of the "next moon" we may "look out for the cars when the bell rings."—*Beaver Dam Citizen.*

Our North-Western Band at Madison.

The North Western Band, last evening, at the Baptist Church, fully maintained their high reputation as the best band and orchestra in this State, and delighted a large audience by their

"Linked sweetness long drawn out"

a little too long, perhaps, as the concert did not conclude till a late hour. Mr. Weinberg approved his high reputation as the best violinist of west; and if his playing was any inferior to that of the great masters, we could not detect the inferiority. His manner of bowing was extremely graceful, easy, light and firm; and his fingering very rarely approached to execution, if it did not reach that point. Mr. Weinberg only needs a little of our American quality of "blowing his own horn" and giving a series of concerts thro' the country in order to attain a reputation fully as high as that of Ole Bull. We hope to hear him again. The Trumpet Solo, and variations on Katy Darling were both admirably executed and elicited prolonged and hearty applause. On the whole this concert was one of the best of the kind with which our city has ever been favored. *Madison Journal.*

MILWAUKEE ADVERTISEMENTS.—We call the especial attention of our merchants to the Milwaukee Advertisements, in this week's paper, in another column. We are glad to see our Milwaukee business men adopting the *Times* as one of the mediums through which to advertise their stock in trade. It is money in the pockets of our merchants to trade in Milwaukee, and if the Milwaukee merchants would advertise in certain country papers published at certain important points, more than they do, they would secure much of that trade which Chicago now enjoys. The country around New London, is rapidly settling, and of course, our business is continually on the increase. Our business men consequently, at stated periods, start east to replenish their stocks, and purchase where they can be best accommodated. Now it is well known that Milwaukee offers just as good and reasonable inducements as Chicago. Then why not buy in Milwaukee? Gentlemen of the Lake city, advertise liberally in the country papers. Let our merchants know where you keep, what you have got to sell, and what you sell for, and depend upon it they will not pass your door. The *Times* circulates pretty generally through Waupaca County to Stevens Point, and has a larger circulation north on the Wolf and the Embarrass, than is generally known, and is therefore a good advertising medium for the Milwaukee merchants. —*New London Times.*

SPRING WHEAT.—About one third more than the usual quantity of Spring wheat was sown in this vicinity last spring; and although the spring was uncommonly backward, the wheat is looking full as well as it commonly does at this season.—*Marquette Express.*

MELANCHOLY SUICIDE.—Mrs. Reynolds, wife of Z. Reynolds, Esq., of the town of Manchester, committed suicide on Wednesday the 25th ult., by drowning herself in a small pond near her residence. When found she was lying on her face near the shore in water about two feet in depth. Insanity was the cause. She had been subject to fits of insanity for several years. She cut her child's throat in one of her insane spells about four years ago. She was about fifty years of age, and was formerly a resident of Rensselaer county New York.—*Ibid.*

TRIAL OF A STEAM PLOW.—A steam plow was tested at Finneiseville, Ind., on the New Albany and Salem Road, one day last week. The soil was quite wet, and altogether unfavorable for the trial, but the Lafayette Courier understands from a gentleman who was present on the occasion, that the practicability of the invention was satisfactorily demonstrated. A number of plows were attached, and the soil laid open to the depth of eight or ten inches. From the experiment made it was thought that two men could plow twenty acres a day with the steam plow.

☞ We hear of reports circulated in some portions of the State, east of here, that the building of the bridge across the Wisconsin had been abandoned, in consequence, as it said, of inability to make one stand erect in the quicksands of the river. This is all a mistake, having no foundation whatever. The work on the bridge is being pushed with the greatest energy and will probably be completed before the first of September.—*Portage City Record.*

BEAVER DAM BY GAS LIGHT.—Our citizens will be pleased to learn that a company is now organizing in this city, with a capital of $50,000, for the purpose of erecting gas works. A gentleman who is largely engaged in the business has been here several days and is ready to close a contract with the company for erecting the works within ninety days.—*Beaver Dam Citizen.*

ACCIDENT.—Mr. Frank Robinson, section master on the LaCrosse R. R. at Midland station, was caught between the bumpers while attempting to couple the cars, on Thursday last, and had several of his ribs broken, besides being otherwise seriously injured. He is under medical treatment, and will probably recover.—*Portage City Record.*

EMIGRATION.—Emigrants are daily arriving here by Railroad in considerable numbers, mostly from Germany and Norway, and many are continually passing through in their own conveyances. If other thoroughfares have an equal proportion the emigration this season to the west must be very large.—*Columbus Rep.*

"AND STILL THEY COME.—The wheat trade is still going on and the past week was about as good as the week before. The prices of last week ranged from $1,16 to $1,20. Fifty-four teams loaded with wheat were counted passing one office last Saturday.—*Columbus Republican.*

Public Benefactions.

Hunt's Merchants Magazine for June, has an article on "Public Benefactions." The writer argues forcibly in favor of rich men making their benefactions to public institutions, while living and in their full mental vigor. He mentions Smithson and Girard as examples of the unfortunate disposition that is generally made of property left by will to found literary, and other public institutions. On the other hand he alludes to Peter Cooper, Doctor Nott, George Peabody and Moses Shepherd, who have munificently employed a portion of their wealth in works of great usefulness, during their own lives. Peter Cooper has appropriated $600,000 to establish a free University in the city of New York, on the plan of Lectures, Cabinets of Arts and Sciences, Picture Galleries, Schools of Design, Libraries, Reading Rooms, &c., in one magnificent building, nearly completed, to be open to pupils without distinction of age, sex or class.

George Peabody has given a half a million to establish a Musical Conservatory and Gallery of paintings in Baltimore; and Moses Shepard another half a million for an Insane Asylum in the same city. The writer, after describing at length the munificence of Peter Cooper, adds:

"A similar observation may be made upon the venerable Dr. Nott. It is not universally known that the large fortune he has bestowed by trust-deed on Union College, (probably worth a million of dollars, although he has estimated the investment at only six hundred thousand,) was, in the first place, the fruit of his own scientific labor, which he has made his recreation in his small intervals of leisure from his various cares as President and Treasurer of Union College. The duties of neither of these offices has he ever neglected. Thousands of alumni throughout the land, who have experienced, during the last fifty years, (for he takes cognizance of every individual's moral training personally, and himself teaches the senior class in intellectual philosophy every day,) will testify that the presidency is no sinecure in his case; while, on the other hand, the ample treasury of Union College, independent of his bequest, shows the indefatigable labor and skill with which he has managed its funds. The College was insolvent when he went into the presidency, but had just received a contingent grant from the Legislature, of which he took the business management, conducting it with a disinterested devotion rarely equalled—for on one occasion, he pledged his private property to the amount of $250,000 advance, in order to prevent the failure of a firm which held College property. This transaction was never known to the public, until brought out, many years after, in answer to a charge of embezzlement—brought against him by malevolent and mean suspicion. Mr. John C. Spencer spent the last year of his life in making straight the tangled web, woven by envy and malice, and made it the condition of his labor that Dr. Nott should permit the publication of the trust-deed, which otherwise would never have seen the light, from which his modesty would have hidden it while he lived.

"That pitiful charge and web shows another side of our human nature:

"Unless above himself,
He shall erect himself—how mean a thing is man!"

It could not be generally believed, that over and above all the labors imposed by his public duties, Dr. Nott's inventions in machinery and brought him, within a period of twenty years, a million of dollars! Yet such was the fact. From the day he was nine years old, this son of a widowed mother had supported himself. Industrious, intelligent, frugal, and unostentatious—but kind and helpful to whoever needed of him material, intellectual, or spiritual benefit—his accumulation of wealth went on enlarging the sphere of his benevolence, till he became a power of wisdom and goodness, so completely outgoing the sordid imagination of the common herd, that invention has nearly gone mad with its theories of his character and action. But has not Dr. Nott himself been the first, as well as the last, blessed, after all?—not only by the development of the gentle and long-suffering temper, which his disinterested action has made a second nature, but in the activity of his mind applied in such a variety of ways—as in the business of investments, which requires knowledge so extensive of all the commerce, and the *Register* says she is a first-class vessel in every respect.

NEW STEAM TUG.—The Buffalo Commercial *Advertiser*, of the 5th inst, thus describes a new and powerful steam tug just built at that port, for service on this Lake:

The Leviathan is undoubtedly the best tug, for her purposes, ever but in at this port. She is built on the two great fields of intellectual activity, added to those given by his duties as President and Professor of Intellectual and Moral Philosophy in Union College, have produced a universality of wisdom, which is happily imaged in his 'fair large front and eye sublime,' recalling the idea of the original man placed in the garden of the world to have dominion. Three score years and ten of unsurpassed activity of body and mind, did not write a wrinkle on his brow, or bend his stalwart form; and neither would fifteen years he has since added to the common age of man, have done so, but for an accident causing an infirmity in his walk, not perceived, however, when he stands, exhibiting all the finest proportions of a man."

We might without impropriety add to the above list of illustrious living public benefactors the name of Mrs. Blandina Dudley, who has given over sixty thousand dollars for an Observatory in this city.—*Albany Evening Journal.*

An Active Couple.

The "excursion correspondent of the New York Tribune, gives the following interesting sketch of Mr. and Mrs. Longworth, of Cincinnati:

I am glad that New Yorkers are going to make the acquaintance of Mr. Longworth in the thirty-merchant picture to be painted for Mr. ——, of New Jersey, by our artist. Rositer, who is now here taking a sketch. For that his wife cannot be put into the painting also. Active, wide-awake, humorous and original, an old man of 75 as he is, she is at 71 his complete counterpart. Straight as an arrow, stately and severe, with a quick walk, such as modern ladies of 18 might envy, and an animation and earnestness of feeling in her conversation, such as many of them cannot even appreciate, she is the type of the women of the Revolution and would have done, one can see, anything that the best of them did. A cheerful old couple on the eve of their golden wedding day, they live at the east end of the city among their children and grandchildren, occupying with their houses and spacious gardens the whole side of a square, and feeding half the poor of the city. Mr. Longworth and his wife are such persons that one naturally speaks of them with the freedom allowed in the case of kings, princes, authors, &c., in their lifetime.

Mr. Longworth is, withal, the best of patrons and appreciators of art in the country. His walls are lined with portraits, and he has several fine paintings, among which an Ophelia and Hamlet, by Sir Benjamin West, is pre-eminent. But the great thing in his collection is Powers' first piece of sculpture, a bust of Ginevra. A remarkable work it is, too, between which and the Greek Slave it would really be difficult to decide. So pure and serene a face as that of Genevra one seldom sees, even in marble; and as a first effort it is marvelous. Power's first piece of workmanship here was for the theatre, illustrative of Dante's Inferno. It had great success, and his serpent still runs around the hall of an establishment here.

THE FACULTIES AND STUDENTS OF GERMAN UNIVERSITIES.—The number of universities in Germany, exclusive of Austria, is twenty. The number of teachers of all kinds, employed in them during the season just passed, was 1,441. They are classified as follows:—673 ordinary, 266 extraordinary, and 43 paid professors; 346 private tutors, and 111 masters of language and exercises. The University of Berlin has 103 teachers; Leipsic and Munich, 100 each; Gottingen 103; Bonn and Breslau, 96 each; Heidelberg 89; Tubingen 72; Halle 71, Jena 63; Konigsberg 61; Giessen and Marburg, 58 each; Gripswald 52; Wurzburg 50; Erlangen 43; Kiel 42; Freiburg 41; Rostock 22; Munster 17.

The total number of students in these twenty universities, during the last season, was 12,970, of which, however, 936 were non-matriculants, attending the lectures only. The University of Berlin had 1,570 matriculants; Munich 1,406; Bonn 828 Leipsic 811; Breslau 790; Wurzburg 711; Tubingen 704; Halle 696; Gottingen 624; Heidelberg 585; Erlangen 500; Munster 449; Jena 389; Giessen 354; Konigsberg 346; Freiburg 307; Gribswald 241; Marburg 224; Kiel 150; Rostock 91.

There are in these twenty universities, 7 Catholic and 16 Protestant theological faculties, with 1,227 Catholic and 2,083 Protestant theological students. The faculties of Jurisprudence, Finance and Forest concerns had 3,051 students; the faculties of Medicine, Surgery, &c., 2390; and the faculties of Philosophy and Philology, 2,893.

☞ The Leavenworth (Kansas) *Herald* of May 30, says that it is estimated 10,000 wagons and 30,000 cattle will cross the plains this season for California. The train which arrived at Leavenworth from Salt Lake, in which were late U. S. Judge Stiles, of Utah, Gen Burr late C. S. Surveyor of Utah, H. F. Howell, late Post Master, at Salt Lake, Thos. S. Williams, merchant, &c., and other gentiles who were driven out of Utah, numbered 60 persons—30 males and 30 females.

The *Herald* has received information from these persons that 250 wagons and 1,000 emigrants, seceders from Utah, are coming to the States; a like number will go to California.—The escape of Williams was almost miraculous, as Young had prophesied he Williams would not get away alive and a band was organized to prevent his escape.

MARRIED.

COMMERCIAL.

THE MARKETS, &C.

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, June 11, 1857.

Received by Mil. & Miss. R. R.—1,000 bbls flour; 10,875 bush wheat; 130 do corn; 748 do potatoes; 50 hides; 4 cars stone.

By Mil. & La Crosse R. R.—2408 bu wheat, 218 bbls and 94 bags flour, 199 bush oats, 141 bush potatoes, 611 bushels 6 bbls eggs, 10,450 lbs sundries.

By Watertown Division.—8,3[illegible] bus wheat, 999 bbls and 66 sacks flour.

Received by Mil. & H. R. R.—1,475 bus wheat, 15 potatoes, 3,000 lbs sundries.

No sales of flour yesterday on change. We heard of a sale of 200 bbls, Phoenix Mills, during the day at $6,50 which is a decline.

WHEAT.—Large offerings at the corn exchange yesterday, but buyers and holders differed materially in their views. We note only sales of 192 bags white winter, at 1,65, 2950 bags club, spring at 1,51. We quote spring at 1,25@1,30, and winter at 1,60@1,65.

Received by railroad 6,72 bbls flour, and 17,500 bush wheat.

Shipped 10 bbls flour, 12,000 bush wheat.

Barley dull and nominally 1,00@1,20.

Rye wanted at an advance; sale of small lots at 1,12@1,[illegible].

Oats 38@38.

Potatoes 1,00@1,12½.

Hides 4½@6 for green, 12@14 for dry.

Freights—Schooners *Josephine* and *Martha Ogden* taken for wheat to Oswego at 7c.

FLOUR AND WHEAT AT BUFFALO.—The Buffalo *Republic* of May 5th says:

Among the principal features of the market it should be observed that, generally whenever a difference in the grades is quoted, it is in consequence of a marked difference in the grades quoted under the same head. For instance, buyers, owing to the difference in character, make no less than three grades of Wisconsin Club, and nearly the same of Illinois Spring. The difference is an important one to western producers, and they will do well to take notice of it.

Sales 600 barrels common Wisconsin at $6,75; 40 bbls double extra do at $7,87½; 100 bbls extra state, from Milwaukee Club wheat, at $7,25. The Spring demand for local and interior consumption is well supplied, and the market, in the absence of any speculative or export demand, will probably exhibit considerable dullness for several days to come.

E. O'Neil, disorderly, case adjourned to June 10th for trial.

Samuel Meyer, fast driving on bridge, fined $2.

Fourth of July Meeting.

We trust that our citizens will not forget the adjourned meeting at the Court House this evening, to hear the reports of the Committees, and to take further action relative to the celebration of the coming "Fourth." There is a good feeling awakened, and a prospect of a glorious old-fashioned time.

ALMOST A FIRE—SUSPECTED INCENDIARIES ARrested.—Our citizens were aroused from their slumbers, yesterday morning, about 2 o'clock, by an alarm of fire, which was kept up for half an hour, or longer. The alarm came from the 4th Ward. A saloon on Second street was discovered to be on fire by two policemen, who succeeded, with the help of a few others, in extinguishing the flames before any of the fire companies arrived at the place. The house, which was a frame building, worth from $500 to $700, was but very triflingly damaged.

Circumstances connected with this fire led the officers to suspect that Thomas Ryan, who occupies the house fired it in order to burn out a man named Richard Dolan, who lives in the second story, with whom he had unfriendly, and whom he threatened to burn out previously, if he did not leave.

The fire, when first discovered, was confined to a cupboard under the stairs, where some loose straw and shavings were on fire. Some of the shavings which were on fire, were pushed up between the lathing and the outside of the wall, directly under the stairs, and it would seem that those who did it, intended to burn the stairs first, in order to prevent the egress of those in the upper story. Ryan, and another man living with him, were arrested, and will be examined this afternoon.

Ten Dollar Sewing Machines.

Of all the various time and labor-saving machines, the fruit of inventive genius of our countrymen, we know of none which has been of greater benefit than the *Sewing Machine;* and of all the numerous patented articles of the kind, we have seen or heard of none which approaches WATSON'S *Ten Dollar* machine, advertised in our columns, and to be seen in operation daily at No. 19 Wisconsin street. The sale of these neat, compact, simple machines is very rapid and the manufacturers find it difficult to supply the demand for them. The proprietors of the right of sale for Wisconsin, take pleasure in exhibiting them as the above named, and will be able to deliver machines in about three weeks.

This sewing machine is indeed a wonderful piece of workmanship, and it is strange that it was not invented long ago—so simple and inventive does it seem. But this is a remark made with reference to many of the most useful inventions; and it is not worth while to discuss the question in philosophy. The thing itself, in operation, is our best certificate. While the machines were held at $50 to $75 or more, the sale was rapid, but now, at *Ten Dollars*, every family will of course have its own machine, and many weary eyes and fingers will it save Call and see it.

RUNAWAY.—Yesterday morning the horse of Mr. Ellis, the newspaper peddler, took a freak into his head to show his swiftness, and consequ ntly came down Wisconsin street at a pace which was by no means in conformity with one of the city ordinances. He did great hurry he did not take particular pains to avoid lamp-posts, and other obstructions—neither did he confine himself to that part of the street usually intended for quadrupeds to travel upon, but very impolitely monopolized the sidewalk, entirely regardless of ladies and children. His progress was somewhat retarded by a sturdy lamp-post at the corner of Main street, which held its place manfully, and compelled the unruly animal to deposite about three-fourths of the wagon, together with the driver, upon the sidewalk. Thus lightened, he continued to run down Wisconsin street, dispersing the crowd which was gathered at Caleb Wall's A ction room in a very unceremonious manner, and finally brought up on Spring street bridge. No one, hurt, and no damage done, save demolishing the wagon.

ACCIDENT TO THE GAS PIPE IN THE RIVER.—The schooner *C. C. Trowbridge* in coming up the river yesterday afternoon, let go her anchor at Spring Street Bridge, and got it hooked in the gas pipe which crosses the river at this place, causing a leak in it which will stop the gas until it is repaired. The Gas Company desire us to state that they are using all possible dispatch to have the pipe put in order, and nothing shall be left undone on their part to have it speedily repaired. The wire of the line of the Wisconsin State Telegraph Co., which crosses the river in the same place was also parted by it, which will also be repaired without delay.

P. S. We learn that fortunately a person is in the city, an adept in sub-marine work with the patent 'Armor,' and his services have been secured. He will descend to the work this morning.

GLOBE IRON WORKS.—MESSRS. L. L. LEE & Sons, who were burnt out last winter, have again got their establishment in thorough repair, and full blast. They have added largely to its dimensions and increased its capacity, and have now 70 men in their employ. In March last, desirous of introducing a new branch of business here, they bought the right to manufacture Daniels's Improved Iron Mower and Reaper, and are now making two hundred of these admirable machines.

The farmers of this State have sent hundreds of thousands of dollars to other States, to purchase these and similar machines. They can now buy them at home, dears. L. Lee & Sons have any number of certificates of the value and efficiency of their machines, and Dr. J. S. DODGE, of this city, who tried one last year, will willingly bear testimony in its favor.

PROMPT PAYMENT BY INSURANCE CO'S.—After all the discouragements consequent upon a severe loss by fire, nothing is more encouraging to the business man than to have Insurance Companies, upon whom he has depended, promptly come forward and fairly estimate and meet the loss. We are pleased just now to mention Messrs. HELFENSTEIN and CAIN as examples of such fair dealing. The former, the President of the United States Insurance Co., of this city, and the latter agent of various Eastern Co.'s, (among which are the "Charter Oak" of Hartford, and the "Star" of Ogdensburgh, N. Y.) settled the damage on the drug stock of Mr. JOHN H. TUSEN, at the late fire, before 24 hours had elapsed.

We commend their good example to all other agents of insurance companies.

AN EXPLANATION.—In our Police Report, yesterday morning, there appeared the following item:

"Augustus Fleischeim, assault and battery; case discontinued on payment of costs."

It is no more than fair to Mr. FLEISCHEIM to say, that the "assault and battery" complained of, was simply knocking down a man, who had insulted him, most grossly and without provocation, and who, in the judgment of the by-standers, was "served right." We think it but proper to add that Mr. FLEISCHEIM is one of our cleverest mechanics and best citizens, and a very man every way. He did no more than any other man of spirit would have done, under the like circumstances.

AN EDITOR WAYLAID!—The editor of the Waukesha Republican was waylaid a few days since, by a stranger who walked up to him, deliberately thrust his hand into his pocket, and taking out the well-loaded contents, dismounted, stepped up to the bar, he was sitting in, and—paid his subscription bill!—*Wisconsin of last evening.*

If the *Wisconsin's sharp* local will be kind enough to inform us, where the "point" to the above *good joke* is, we will help him laugh!

A BEAUTIFUL AND INSTRUCTIVE EXHIBITION.—Those of our citizens who may wish to be amused and instructed at the same time, will find Professor Greiner, for for a few days only, at No. 12 Wisconsin street. He will form glass into any shape or style, without Pattern or Mould, and spin it into thread at the rate of 8,000 yds per minute. Ladies and gentlemen attending the exhibition will be presented with a specimen of the thread gratis.—Parents wishing to have their children see the glass-blowing will please call in the day time. Three exhibitions daily from 9 till 12 A. M, 2 to 5, and 7½ to 9 P. M. Admission 15 cents; children accompanied by parents 10 cents.

COUNTRY LIFE.—We would call attention to the advertisement of the Layton House, which will be found in another column. Col. J. O. Crounse has lately fitted up this well-known house in the best style, and is now prepared to furnish a few boarders with excellent accommodations. This house is beautifully situated in the most delightful and healthy location to be found anywhere near the city. The name of Col. Crounse is quite sufficient to establish the reputation of the house, and those who may visit this favorite resort will be sure to get a warm and hearty reception by the gentlemanly proprietor.

NEW OMNIBUS LINE.—Mr. Brockway has commenced running his new omnibus line, between the corner of East Water and Wisconsin Streets and the Forest Home Cemetery and Layton House, going through East Water street, Walkers Point, and the Eighth Ward, conveying passengers to and from any or all of these places. It will leave Wisconsin street at 9 A. M., 2 P. M., and 6 P. M., and the Forest Home at 6½ A. M., 12 M. and 5 P. M. This will be a cheap and pleasant ride for any body, the fare being only ten cents each way.—Jump in and take a ride!

RESCUE HOOK AND LADDER CO., NO. 2.—This new company has elected its officers, as follows:

Foreman—PETER WEBER.
1st. Assistant—GOTTLIEB REIS.
2d. " CARL HOEHLEIN.
Secretary—WILHELM KRIPE.
Treasurer—AUG YOELLER.

DANGEROUS PLACE.—A correspondent writes that there is an open well at the corner of Jackson and Michigan sts., 3d ward, into which persons are likely to fall, and receive injuries which will bring heavy damages upon the city.

CONCERT TO-MORROW NIGHT.—It will be remembered that the new Concert Society give their first entertainment to-morrow night. The programme is a good one, and without doubt, the Concert will draw a full house.

THE WEATHER.—Yesterday morning was bright and clear, and from appearance, one would have thought that we were going to have a very pleasant summer's day, but towards noon it became cloudy, and rained steadily the greater part of the afternoon.

MIL. & MISS. R. R.—CHANGE OF HOURS.—We change the figures in our Traveller's Directory this morning, to correspond with the change recently made in the hours of arrival and departure of the M. & M. R. R. trains.

MR. MEAGHER'S LECTURES.—The advertisement of the two lectures by the eloquent and brilliant Irish orator, Mr. Meagher, will be found in our columns this morning.

NEW ADVERTISEMENTS.—Owing to the crowded state of our columns, this morning, we have been obliged to "lay over" several new advertisements until to-morrow.

NEW ADVERTISEMENTS.

PRAIRIE DU CHIEN AND ST. PAUL
PACKET CO.,
IN CONNECTION WITH
MILWAUKEE & MISSISSIPPI R. R.

SHIPPERS OF FREIGHT and the Merchants of the Upper Mississippi River are notified that merchandize for the various Landings marked to the care of the Milwaukee & Mississippi Rail Road at Prairie du Chien, will be received there on the Levee by the undersigned for shipment at Tariff Rates:—

By Steamer Milwaukee, Captain Hewitt.
" Iowa, " Whitten.
" Ocean Wave, " Andrews.

One of which new and powerful side wheel boats leaves the Prairie every day at 8 o'clock for St. Paul, arriving there the next day at 10 o'clock A. M.

It is the object of both the Road and the Boats to prevent all unnecessary charges, and as goods are transferred by the Rail Road Company directly from the cars to the Levee, without any expense to the consignee, no commissions whatever will be permitted to be charged.

Merchants will bear this in mind in making their shipments, and as it is the intention of every one connected with this Route to make it a popular one, no delay will take place in sending freight forward.

For Prairie du Chien Packet Company.

F. J. WELLS, General Agent.

N. B.—Consignments of Reapers, Mowers Threshing Machines and Machines received as above.

As no other proceeds from the preparation, the glove can be worn *immediately* after it is cleaned. With a piece of flannel, apply a small portion of the preparation very lightly, and the dirt will immediately disappear. It is the article used by the Kid Glove Manufacturers of France to impart that purity of finish and softness for which their gloves are so justly celebrated. It cleans kid slippers and white and colored kid gloves elegantly. It is also a superior article for the toilet, and for beautifying the complexion removing tan, pimples, &c., far exceeds in excellence any of the thousand and one preparations used for this purpose. Our trial, at the trifling expense of 25 cents, will convince any one that the article is all that it is claimed to be. Try a bottle of it for 25 cents, and you will never wish to be without it. It can be obtained at all Druggists and Dealers in Fancy Goods in Milwaukee, and at whole sale of the sole proprietors CLARK & Co., 195 Broadway, New York. A liberal discount to the trade. As there is no inferior article in the market, buyers will be careful to see that the name of CLARK & Co. is upon each bottle which they purchase. jel1e871-d3mnr8s

OGDEN & WALL,
CITY LAND OFFICE.

SALE AT PORTAGE CITY.

AGAIN and for the last time we invite public attention to the sale of lots in Portage City, which is to commence on Friday of this week, at Mann & Williams Land Office, in that place.

The sale will take place at a season so favorable for making investments in property of this kind as the one on which we are now entering. The future of almost every town in our State can now be predicted with much certainty, for the different elements on which they generally depend for their growth have become more clearly developed. To those who already appreciate the immense advantages of Portage City, and who see in her lines of roads and in her fine navigable river a sure promise of future greatness, we have nothing to say, their own sagacity will teach them to "pitch in and win." To strangers, however, and to those who are seeking new homes and new fields for their enterprise and industry, we say look well at the map of the State, examine carefully the premises which it is out, and if you think we of us, seize the opportunity now offered of procuring one of choice lots in one of the most favorable localities of our State, where property is rising rapidly in value in order to meet the wants of its growing population. C. H. LARKINS ADDITION.

FIRST WARD.

HOUSES FOR THE PEOPLE

THE spirit of speculation which in other parts of the city is raising the price of property so high that no man of moderate means can afford to purchase a lot, has not reached but little beyond the limits of the Third ward, where this beautiful Addition is located. On this account should recommend itself to the attention of those who desire to secure a family homestead. This, however is but one of its recommendations, for its high and commanding situation on the river bank, the beautiful lay of the land, the improving neighborhood, and its proximity to the business part of the city, all unite in rendering it as the s of above all would like to purchase and build. Maps can be had at our office.

A public sale of a few lots will be held at the City Auction Room on the 24th.

RUSSELL'S PATENT MASTIC
ROOFING.
Patented February 19th, 1856.
THE Mastic Roofing has been thoroughly tested for the last four years, and found in every respect to be all and even more than was represented, excelling by far all others now in use, Tin and Slate not excepted, in its adaptation to steep and flat Roofs, Hall Road Cars, Foundries, &c.
We are well aware, that in offering a new Invention to the public it must meet with some opposition that it should stand or fall upon its own merits. Our preparation is entirely different from any before known. We use a heavy Canvas, and saturate it with a water-proof compound before laying on the roof. On this we put a heavy cement which also renders it
FIRE-PROOF.
By this preparation it makes a much heavier and more desirable Roof than any other Cement Roofing now known.
For References see Circulars; and the Roofing can be seen on Alderman Flanagton's Candle Factory, and on the Phoenix Building.
The above Invention was made by O. O. Hoff, of Albany N.Y. The Right as I Interest to said Invention was purchased by E. P. Russell of Marlon, N. Y. and letters Patent were obtained by him February 12th, 1856, and was awarded the first Premium and Diploma at the Albany 2d. Fair in the Fall of '56. We are authorized Agents for the sale of Town and County Rights in the West.—Those who may wish to engage in a highly profitable business with a small capital are earnestly desired to call. 400 Desirable Dwelling Lots For Sale.
THE SUBSCRIBER has completed the survey and plat of his subdivision in the Eighth Ward, and now offers them for sale. These lots are within ten minutes walk of the Harbor, the Beloit, Lake Shore and Milwaukee & Mississippi Depots, about the same distance from Walker's Point bridge as Chestnut and Division streets on the north.
These lots are situated upon a level plateau commanding a beautiful view of the City, Bay and surrounding country. The soil is sand and gravel mixed, and sufficiently rolling to afford all drainage without deep cuttings. The location is every way desirable for pleasant homes. The Ward already numbers some of the best dwellings in the city and the healthfulness and beauty of location, make second to none in the city.
Great inducements will be offered to parties intending to build the present season, and to all persons wishing to make investments, that are certain to speedily return several hundred per cent profit, an opportunity is now offered.
It is confidently believed that no property has been offered for sale in this city within the last five years presenting so certain and large an advance.
The public are invited to examine the property, an agent will be on the grounds from 9 to 12 A. M., each day, to give all necessary information.

ANNOUNCEMENT.
IN consequence of ill-health, I have felt it my duty under the advice of my physician, to give up business entirely. I have sold out my stock of Books, Stationery, &c., to Henry Kempshall, who has been with me during the past year, and for the four previous years with Messrs. D. Appleton & Co., of New York.
It is with no ordinary regret that I relinquish a pleasant and successful business, and close the connections which have existed between myself and my customers.
In Mr. Kempshall, I am assured that my old friends and patrons will find a thorough business man, who will treat them courteously, deal honorably, keep a good stock, and sell at reasonable prices.
N. B. All accounts for or against me will be settled by him. ARCHIBALD WILSON.
Milwaukee, March 30, 1857.

Having purchased the stock of Mr. Archibald Wilson, and his interest in the bookselling business in this city, I propose to continue the same in the old stand, and shall endeavor, by keeping a full line of the best and most desirable assortment, and by careful attention to business, to merit patronage from both old and new customers.

NOTICE TO CONTRACTORS.
EXECUTIVE DEPARTMENT,
MADISON, May 7th, '57.
NOTICE is hereby given, that sealed proposals will be received at this office, at any time previous to the fifteenth day of June, 1857, for building and completing the Enlargement of the State Capitol, as provided for in Act of the Legislature of this State, entitled "An act authorizing the Enlargement of the state Capitol, and providing and appropriating means for the payment of the same," approved February 25, 1857. All of the work to be executed, and all materials furnished, in accordance with the plans and specifications of the Architects, Messrs Donnell & Kurtzbeck, at the office of the Secretary of State, all persons desiring to bid, will find full and complete plans, specifications and detail drawings. The work to be executed under the general direction of the Architect employed by the State to superintend the construction of the same; and the building to be fully completed at some time prior to the first day of November, 1858. No bid will be considered, except from the responsible of the entire building proposed to be erected, and no contract will be entered into for the completion of said building, that shall create any liability on the State, greater than the amount appropriated by said Act.
A Bond of Twenty-Five Thousand Dollars, will be required to be executed to the State, by the person taking the contract, with five or more sureties, subject to the approval of the Governor, conditioned for the faithful performance of the contract. All proposals must specify the names of the sureties proposed to be given, and must contain their consent to the use of their names for such purpose. COLES BASHFORD.
